Summary

Full-Stack Developer | React.js & Java Spring Boot

Front-End Developer with **2.5 years of experience** building responsive and scalable web applications using **React.js and Next.js**. Recently expanding into **Back-End development with Java Spring Boot**, with knowledge of **REST APIs, Spring Security, and database integration**. Passionate about clean code, performance optimization, and building real-world business solutions.

Work Experience

Front-End Developer | Salesboom CRM – 5/2025 – 4/2026

- Developing scalable web applications using React.js & Next.js with reusable components.
- Integrating REST APIs and optimizing performance and user experience.

Trainee | Backend Java Spring boot & Angular Developer | tamer innovate | Jul – Dec 2025

- Gained hands-on experience building RESTful APIs, implementing authentication, and integrating Oracle DB with Java Spring Boot.
- Developed responsive frontend features using Angular.
- Collaborated with team to understand workflows and enhance full-stack skills.

Front-End Developer | React & Next.js Active4Web –08/2022 – 08/2024

- Built responsive, high-performance web apps with React.js/Next.js, focusing on SEO and UX.
- Created reusable UI components using Tailwind CSS and Bootstrap.

Projects

E-commerce Onlineshop (View the project) (Next.js)

- Built a responsive multi-language e-commerce platform with SEO optimization using Next.js .
- Developed an admin dashboard with Bootstrap, Axios, and React Query for efficient data handling.

Task Management & Performance Tracking System - [View the project](#)

- Developed a scalable Task Management System using Angular and Spring Boot to assign and track tasks in real-time.
- Implemented JWT authentication and role-based access control, and built RESTful APIs for seamless integration.
- Added performance reporting features to monitor team productivity and task progress.

User management System [View the project](#)

- Built a User Management Dashboard using React, Redux, and Material UI.
- Implemented user add, view, and delete operations with optimized state management.
- Designed reusable UI components and improved performance using centralized state handling.

E-commerce Platform with Admin Dashboard (React.js & Spring Boot) [View the project](#)

- Built a responsive admin dashboard using React.js with reusable components
- Developed and integrated RESTful APIs using Spring Boot for data management

E-commerce [\(View the project\)](#) (Angular)

- Developed a role-based management dashboard using Angular, Bootstrap, and RxJS.
- Integrated RESTful APIs for real-time management of users and system data..

Skills

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, TypeScript , React.js, Next.js
- **Backend:** Java, Spring Boot, Spring Security, REST APIs
- **Database:** Oracle, SQL
- **Tools:** Git, GitHub, Postman, Maven, React Query

Education

Bachelor of Management Information Systems

Faculty of Commerce – 2020–2024 | Grade: Good
